

African Population and Health Research Center

Transforming lives in Africa through research

**Christine Amondi,
Co-researcher, APHRC**

Sanitation workers

Challenges

- Lack of personal protective gear such as overcoat, gloves, boots
- Lack of proper equipment to use in the transportation of fecal waste.

Opportunities

- Some are organized in groups and have protective gears
- Some have access to capacity building and training opportunities

The community

Challenges

- Poor WASH facilities due to population density
- Commodification of WASH facilities

Opportunities

- Co-creation of solutions i.e Work together in identifying construction of WASH facilities such as toilet

Government

Challenges

- Inability to provide all services to everyone because of high population density

Opportunities

- Well-laid regulations to ensure equitable distribution of resources to all citizen
- Partnership with the community on WASH innovations
